Dear Scotts Bluff County Commissioners:

As provided by Neb. Rev. Stat. sec. 2-954.02, the Nebraska Weed Control Association sponsored training events for the continuing education programs in 2024 for county weed control superintendents. A total of 40 continuing education hours are made available, with county weed control superintendents required to complete a minimum of 20 hours.

In accordance with section 2-954.02, this letter is to notify the Scotts Bluff County Board that the required twenty hours of continuing education was not met by Steve Baird, the county weed control superintendent.

The following dates and locations are education programs being offered for the year 2025: NWCA Conference on February 4-5 in Kearney; Spring Training on March 26-27 in Norfolk; Fall Training on August 6-7 in Norfolk; and the NACO Annual Conference on December 17-19 in Kearney. In addition, there are two New Superintendent Trainings to be held in Norfolk, one sponsored by the NDA on March 25<sup>th</sup> and one sponsored by the NWCA on August 5<sup>th</sup>. Please note that the New Superintendent Training does not qualify for CEU's.

I would recommend that at your next regular meeting, members of your County Board discuss the upcoming educational opportunities that are available so that your weed superintendent can meet the statutory requirements.

If you would like more information about the continuing education programs that were conducted, you may contact Rob Schultz, Hall County Weed Superintendent, 2807 W 2<sup>nd</sup> Grand Island, NE 68803 or at (308) 385-5097.

Sincerely,

  
Jon Cannon  
NACO Executive Director
