

Hello Bill,

I would like to be considered for the open seat on the Scotts Bluff County Planning Commission. A little bit about my background is as follows:

I was born and raised in Scotts Bluff County; after graduating from Gering High School, I attended West Nebraska Community College for a year, then moved to CO to go to school, get a career, and start a family. I worked for a Ford dealership in Colorado for 20 years, then moved back to the valley in 2006, and have been working and building businesses in the valley since. I was selected to participate in the UNL LEAD program and am an alumnus of class 34. I have sat on the Nebraska Dept. of Labor Board for several years and brought the first State Certified student apprentice program to Scottsbluff High School.

I own several local businesses and would enjoy the opportunity to give back to my community.

Thanks, and I look forward to hearing from you.
