

Scotts Bluff County General Assistance Report

December 1, 2024 – March 31, 2025

One of the anticipated outcomes of our initiative is to utilize these funds to strengthen the support network for individuals and families underserved by current community funding sources within CAPWN's service area. Our objective is to deliver these essential services while leveraging our case management system and offering ongoing follow-up support to help ensure each individual's long-term success. Between December 1, 2024, and March 31, 2025, we successfully assisted 90 clients with a range of services.
