

June 8, 2026

Dear Scotts Bluff County,

I hope this letter finds you well. I am reaching out on behalf of Life First Learning, a small locally owned business in Scotts Bluff County, to introduce training opportunities that can help your organization improve safety and preparedness.

Emergencies can happen anywhere, and the actions taken in the first few moments can make a meaningful difference. CPR and first aid training help people recognize emergencies, respond with confidence, and provide immediate care until professional responders arrive. We also offer active shooter and violent critical incident training to help organizations strengthen situational awareness, response planning, and overall readiness.

At Life First Learning, we believe training should be practical, professional, and relevant to the people we serve. Our goal is to equip businesses, churches, and community groups with skills that build confidence and create safer environments. We also have resources available to help organizations explore the purchase of life-saving equipment.

We would welcome the opportunity to speak with you about training options for your team or organization. Please feel free to reach out to me by phone or email to discuss course options, pricing and any specialized training needs your organization may have. We would welcome the opportunity to provide instruction and equipment that can help your team respond confidently when it matters most. Thank you for your time, your leadership, and your commitment to the safety and well-being of those you serve.

Sincerely,

Robby Rhembrandt NRP, FP-C, CCP-C, C-NPT
Life First Learning LLC.
