COUNTY VEHICLE IDENTIFICATION POLICY 15,000.000

All county-owned vehicles are to be clearly identifiable to promote transparency, accountability, and public recognition.

This applies to all county-owned or county-controlled vehicles, including passenger vehicles, trucks, equipment, and trailers used for official county business.

Exceptions: Law enforcement or sensitive operations with written approval from the County Commissioners or Department Head.

Requirements:

- Minimum Identification: County name; department name when applicable.
- Placement: Both sides of vehicle.
- Condition: Markings must be maintained and replaced when faded, damaged, or missing.

Department Heads are responsible for ensuring identification is clearly visible at all times.

Non-compliant vehicles may be removed from service until corrected. Violations will be documented and addressed with the responsible department.
